

Math 110 (Section 002) Learning Objectives

Students should be able to do the following things by the end of each respective unit. Additions may be made as the term progresses.

Related Rates

1. Give examples of “real life” related rates problems in his/her intended field.
2. Solve simple related rates problems using a systematic method of enumerated steps.
3. Evaluate the plausibility of a model involving derivatives based on dimensions, range, and extremal behaviour.
